PROJECTS AND EXPERIENCE

Nagpur College Finder

- This is a College Website that allows colleges to advertise their college and students can rate them and comment on them .
- It also helps in advertisement of PG, Renting Services and Tiffin Services.
- Build using a Node rest api backend and react as frontend.
- Github:https://github.com/ritishDas/Nagpur-College-finder

Crowd Funding DAAP

- Made it while learning blockchain and decentralised app.
- It allows user to create a Crowd funding campaigns and donate on other campaigns with eth.
- Used Solidity for backend and react for fronend
- Github: https://github.com/ritishDas/Crowd_funding_daap

Web Dev Learning platform

- This was a project made during a hackathon.

- It allows user to learn basics of web development by hands on practice, help from ai and documentation at a single page making it an efficient learning platform.

- Github: https://github.com/AparnaBadhe/HackOn_Codecoin

College Projects

As a **Joint technical head** of Coding Club and **Website Assistant** of Picsel Forum. I contributed in development of college websites I.e The coding club website and the picsel website
